Rye Heritage Month

In pursuit of making November the official Rye Heritage Month, we are hosting a 3 city special ticketed event series. Kicking off in Chicago, then to Boston and culminating in New York. In the name of this mission, brands are coming together to showcase their own Rye and form a coalition.

The evening will include a casual seminar and Q&A with master distillers including Dave Pickerell of WhistlePig, celebrated journalists from the Daily Beast and revered Rye experts. Hors d' oeuvres and classic Rye cocktails will be served, as well as, tasting the Rye spirits at their purist form.

As the first distilled whiskey in the U.S. - favored by founding father and noted distiller George Washington - this Rye Heritage event will both teach and celebrate our beloved grain.

Monday, November 7th
